

# Count Up to Subtract

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Two-digit numbers - work the steps from left to right, then write the answer.

**How it works: Count Up to Subtract** Start at the small number and count up in easy jumps. Your jumps are the answer.

**43 - 36 = 7**

count up to the next ten

**36 + 4 = 40**

add the last ones

**40 + 3 = 43**

add up your jumps

**4 + 3 = 7**
